## ***Ecopreneurship: New Times, New Opportunities, New Minds***

Town and Country has been adapting to the rapidly changing times. Despite the rocky economy, opportunities exist in niches that meet our mission. Our first special guest, Dwayne Sperber, local craftsman, will tell the story of building markets for his beautiful ash wood products in the wake of the emerald ash borer invasion. The second half of our program will feature a panel of inspiring young ecopreneurs speaking of the values that drive their work for regional sustainability.

## **Silent Auction - Browse and Buy**

A highlight of the annual meeting, homespun, small-is-beautiful products support Town & Country RC&D's activities. If you would like to donate a product/service to be bid upon, call Beth, 920-541-3208, for details.
